1. Introduction

Thank you for your interest to our product.

NOTIFICATION PRO (Abbreviation: **NP**) is the Question2Answer (Abbreviation: **Q2A**) plugin that member can know several events on QA site by Ajax notification parts and email. Q2A have minimum email notification feature. But if you install this plugin, your QA site will become more active. Plugin is made in accordance with the plugin making manner of Q2A. Therefore, you can upgrade Q2A in comfort. The convenience of all the people related to Q2A improves, and I hope Q2A system is recognized from people in the world.

Strict observance

This plugin isn't Q2A official product. Because other Q2A users are annoyed very much, you never post question and inquiry about this plugin to Q2A official site. Please post question and inquiry to lower site by all means.

Disclaimers

The performance of this plugin comes under big influence of user count, user activity and server spec of your site. And you should know the specialized knowledge (CRON, Server tuning, etc) to operate this plugin definitely. Therefore, we don't accept objection about performance and general technical question to have nothing to do with this plugin directly except program bug. In addition, this plugin is not a thing guaranteeing the movement in every environment. If you install third party plugin and customize Q2A, plugin may not move definitely. Particularly, this plugin does not tested in WORDPRESS integration in present. And, it may be necessary to hack program of this plugin when override function collides with other theme and plugin. This is not avoided in structure of Q2A. Anyway, please do not forget that this plugin was tested only in standard installation state of Q2A. If plugin don't work well, you have to use ASKIVE tech support service (Payment is necessary).
